Minutes

Agenda item: Planning the Document

Presenter: Karolina Kowal

Discussion:

We need to find sources that will back up our claim that the government should move over its services to the cloud. We should find at least 10 different sources that will back up our claim, and describe the different cloud computing infrastructure that the government will need for its uses. We also need to find different cloud service providers that are willing to offer both public and private cloud services to the government.

Conclusions:

Find at least 10 sources before our next meeting.
